Asmae Aliti

Full-Stack Web Developer

Phone: +212 641814343 | **Email:** alitiasmae@gmail.com | **LinkedIn:** asmae aliti | **GitHub**: github.com/asmaealiti

PROFESSIONAL SUMMARY

Passionate about building efficient web solutions from front to back. I transform complex requirements into clean, functional code using JavaScript, React, Python, and PHP. At Pi Marketing, I optimized system performance, significantly reducing page load times and manual workloads. Always learning, always adapting - I thrive where technology meets problem-solving.

WORK EXPERIENCE

PHP Developer/Support | *PI Marketing*

September 2023 - Present

Key Achievements:

- Built a centralized server management dashboard integrating data from 3+ platforms (including AWS), reducing manual verification and enabling real-time edits.
- Led end-to-end development of an internal account manager tool, consolidating provider data (tickets, payments, history) into a single UI with dynamic filtering.
- Designed a granular permission system for internal teams, improving security and reducing unauthorized access.
- Automated data migration via Python scripts, replacing unstable live logs with a stable database for accurate reporting.
- Optimized critical workflows, slashing page load times by 50 %+ through bottleneck analysis and code refactoring.
- Developing a real-time chat support system (WebSockets/Pusher) to replace external tools, aiming to track 100% of user requests internally.

SKILLS

- **Languages:** JavaScript, PHP, Python, HTML, CSS
- **Frameworks/Libraries:** React.js, Laravel, jQuery, Bootstrap
- **Databases:** MySQL, MongoDB
- **Tools:** Git, Bitbucket, AWS, WebSockets (Pusher), Linux (Ubuntu/CentOS)

PROJECTS

Student Management System | *HTML, CSS, Bootstrap, PHP, JSON*

- Built a CRUD interface for tracking special-needs students' details, including a stats dashboard.
- Solved a real-world problem for an educational initiative.

Interactive Quiz Web App | *HTML, CSS, Bootstrap, JavaScript*

- Created a multi-topic quiz platform with score tracking, answer hints, and dynamic UI responses.
- Demonstrated problem-solving in user flows and feedback systems.

Food Order Management System | *HTML, CSS, PHP, MySQL*

- Created an admin panel to add/edit food categories, reinforcing PHP/DB skills.

EDUCATION

Diploma: Specialized Technician in Digital Development

Institut ISMONTIC, Tanger | 2021–2023

- Specialized technical diploma in digital development with focus on full-stack web development.

Bachelor's degree in Life and Earth Sciences

Abi Abass Sebti High School, Tangier | 2020-2021

CERTIFICATIONS

Agile Project Management Certification | Alison | 2024
